

Biovance® 3L

Tri-Layer Human Amniotic Membrane Allograft

Strength in the Surgical Setting

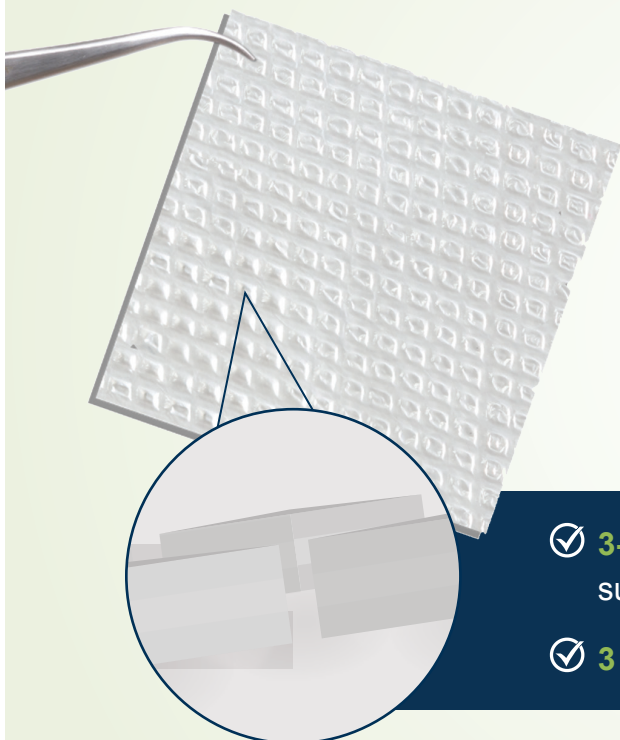

What is Biovance® 3L?

- Decellularized inert amnion scaffold derived from the placenta of a healthy, full-term pregnancy
- It is devoid of cells, hormones, growth factors and cytokines

Biovance 3L's unique 3-layer construction is designed for improved handleability and ease of use when used as a covering, barrier, or wrap for surgical applications and wound care.

Features Exclusive to Biovance 3L:

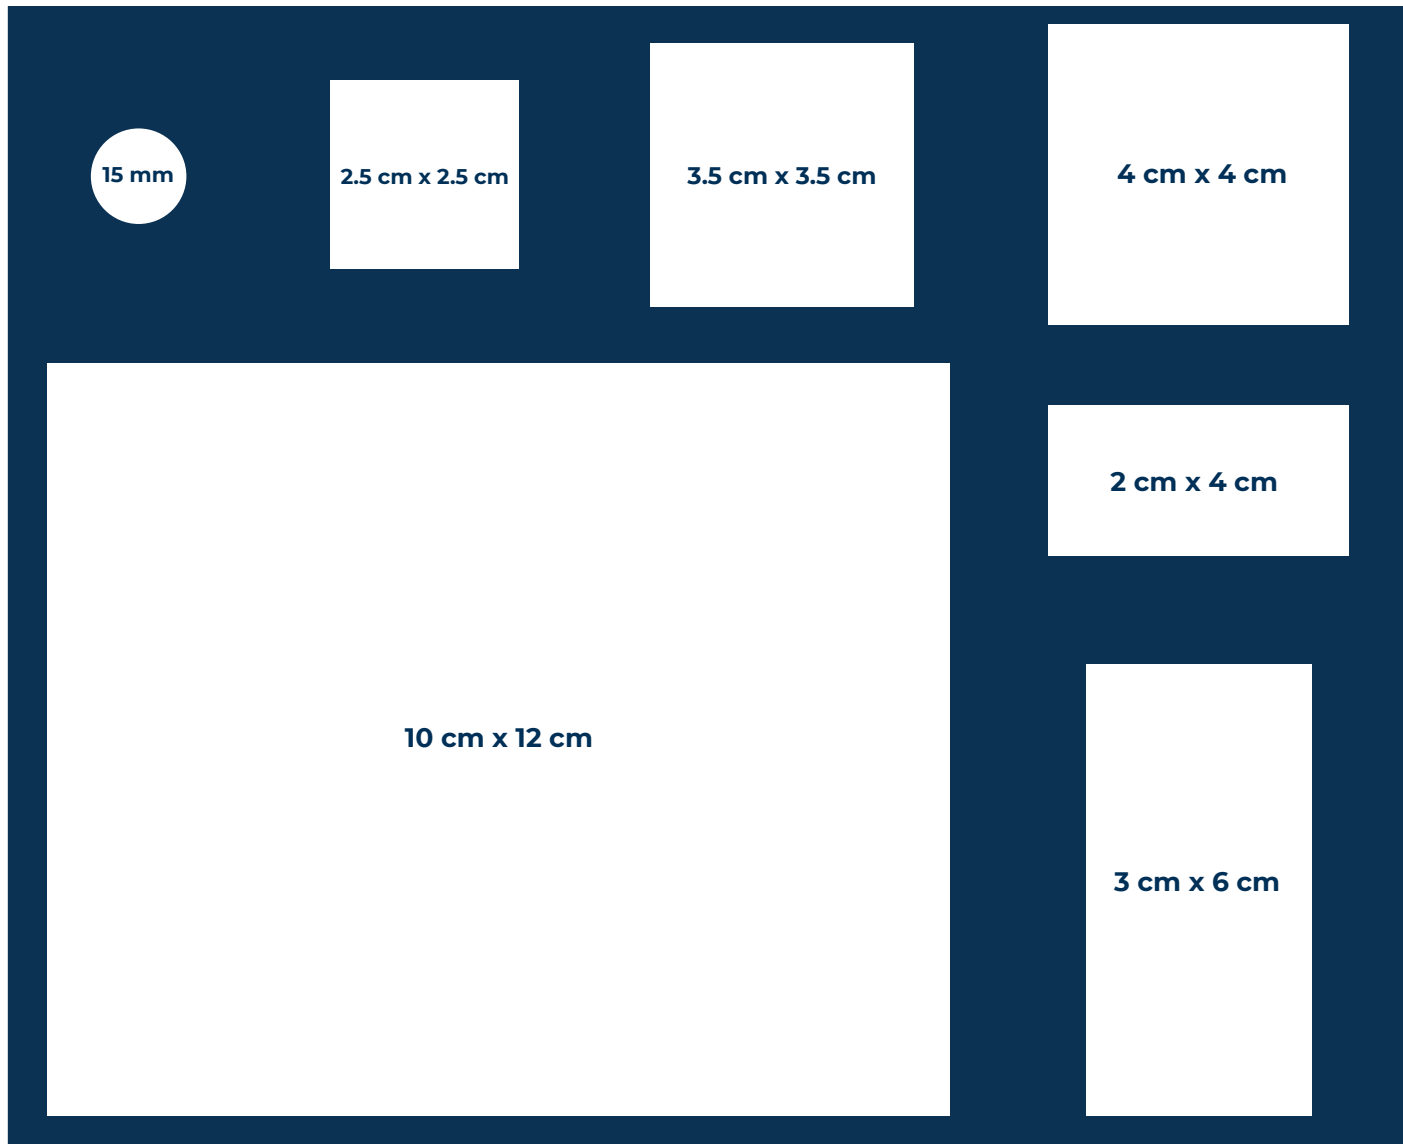

- **Easy to handle:** three layer design is thicker than other single layer amnion
- **Easy to use:** no preparation required
- **Conforms easily:** to irregular surfaces
- **Tri-layer design:** allows for suturing if needed
- **10-year shelf life:** stored at ambient room temperature

- ✓ **3-dimensional design** provides more surface area and allows for suturing if necessary.
- ✓ **3 laminated layers** to improve structural integrity and handleability.

Product Ordering Information

Available in seven sizes to meet your application needs.

Product Code	Product Size	Total Square CM
DHAM015S	15 mm	2 cm
DHAM2525S	2.5 cm x 2.5 cm	6 cm
DHAM024S	2 cm x 4 cm	8 cm
DHAM3535S	3.5 cm x 3.5 cm	12 cm
DHAM044S	4 cm x 4 cm	16 cm
DHAM036S	3 cm x 6 cm	18 cm
DHAM012S	10 cm x 12 cm	120 cm
