

BIOVANCE®

Human Amniotic Membrane Allograft

What Is BIOVANCE®?

- **Decellularized, dehydrated human amniotic membrane (DDHAM)** derived from the placenta of a healthy, full-term pregnancy.
- Designed to **cover or offer protection** from the surrounding environment in soft tissue repair & reconstructive procedures.

What Makes BIOVANCE Unique?

- Unlike other placenta-derived allografts, **BIOVANCE is completely decellularized** - it is devoid of cells, hormones, growth factors, cytokines, and other substances.

Is BIOVANCE Easy to Use?

BIOVANCE is designed for ease of use in both surgical and nonsurgical settings. It requires **no preparation**, can be applied in **any orientation**, conforms easily to irregular surfaces, and requires **no sutures**.

BIOVANCE is an allograft intended for use as a biological membrane covering that provides the extracellular matrix.

Easy to Apply

1. Remove from the package and use sterile atraumatic forceps to remove BIOVANCE® from its inner peel-pouch.
2. Apply BIOVANCE over the defect—no specific orientation is required.
3. Adheres well without sutures.

Please see Package Insert for full instructions.

Minimal Application Time

- **No preparation:** no thawing, rinsing, or soaking required
- **Flexible matrix:** easily conforms to the surface, resulting in no additional bulk to site
- **No orientation:** BIOVANCE can be applied with either side facing the tissue
- **Adheres without sutures:** BIOVANCE can be sutured, taped, stapled, or glued, as determined by the surgeon

Maximum Convenience

- **10-year shelf-life** eliminates need for pre-ordering
- **Room temperature storage:** no refrigeration necessary

Available in Multiple Sizes for Application Flexibility

1 x 2 cm	Product Code: DHAM0012
2 x 2 cm	Product Code: DHAM0022
2 x 3 cm	Product Code: DHAM0023
2 x 4 cm	Product Code: DHAM0024
3 x 3.5 cm	Product Code: DHAM0035
4 x 4 cm	Product Code: DHAM0044
5 x 5 cm	Product Code: DHAM0055
6 x 6 cm	Product Code: DHAM0066
10 x 10 cm	Product Code: DHAM1010
